

KEY AREAS

SEDIMENT - WEST JEFFERSON COUNTY

ALTERATIONS

Soleduc - WRIA 20

Elwha-Dungeness - WRIA 18

Queets-Quinalt - WRIA 21

Skokomish-Dosewallips - WRIA 16

Lower Chehalis - WRIA 22

NOTES:
This map is intended for planning purposes only.

KEY AREAS
* Erodible soils / landslide hazard areas
* CMZ = high and moderate CMZ, but not disconnected CMZ

ALTERATIONS
* Road density = miles per watershed square miles
* Roads within 200 feet of streams
* Human Imprint = high intensity land use, transportation, agriculture, and urban land

Shorelines of the state are based on 20 cfs limits from USGS (1996) per Maps 1A and 1B.

Legend

- Jefferson County Boundary
- WRIA Boundaries
- Watershed
- Road Density
 - <1 mile of road per watershed sq. mi.
 - >2 miles of road per watershed sq.mi.
- Streams
- Shorelines of the State
- Shorelines of Statewide Significance
- Roads within 200-feet from streams
- Intersection of roads and streams
- Landslide Hazard Zonation
- Landslide Inventory (WDNR)
- Erodible Soils
- Human Imprint
- Lake
- Waterbodies
